The average LCR is calculated by taking a simple average of monthly figures based on daily average balances beginning from Apr 1st, 2025 to Jun 30th, 2025.

During the period, the Bank held an average of 96.16% of its High Quality Liquid Assets (HQLAs) in securities with a 0% risk weight, issued or guaranteed by sovereigns, central banks and supranational entities. The remaining 3.84% of HQLAs held a 20% risk weight from securities guaranteed by sovereigns and non-financial corporate bonds rated AA- or better.

The majority of the bank's weighted cash outflows are attributable to non-financial corporates at 49.41% of outflows. Whereas retail and small Businesses' deposits held 21.38%, and bank placements at 12.80%. SNB's derivatives positions are not significant, as most transactions are conducted on a back-to-back basis with limited open positions being taken. The Group's main activities are conducted in SAR USD, and TRY. The peg between SAR and USD currencies enhances the funding ability and provides the flexibility to interchange between both currencies.

Additionally, following regulatory guidelines, LCR is monitored separately for all significant currencies to ensure the liquidity ratios are met at all times in either currency, SAR, USD and TRY.

The average Q2-2025 LCR is 227.39% as compared to Q1-2025 LCR which was 245.53%, a decrease of 18.14%. The decrease in the LCR between the two periods is primarily due to decrease in HQLA and increase in net cash outflows.

As at the end of June 2025, the Bank held a balance of 26.69% of its Available Stable Funding (ASF) in capital, with a 100% ASF factor, comprised of regulatory and other capital instruments. The majority of Available Stable Funding was held as retail and SME deposits at 45.90%, with a 95% ASF factor for stable deposits and 90% ASF factor for unstable deposits, 18.89% of ASF was in

wholesale funding, with a 50% ASF factor and the remaining balances were held as other liabilities with different ASF factors.

The Required Stable Funding (RSF) at the end of June 2025 is predominantly comprised of performing loans and securities holding 76.29% of the total Required Stable Funding, with various

RSF factors. Of these loans, were performing loans to non-financial corporate clients, loans to retail and small business customers, and loans to financial institutions at 69.48% of the total Required Stable Funding. The remaining composition of RSF held in HQLA's, deposits held at other financial institutions, other assets and off balance sheet items.

Basel III Qualitative and Quantitative Pillar 3 Disclosures Policy:

To assure compliance with the requirements of the guidance issued by SAMA dated December 2022, SNB has created Basel III Pillar 3 Disclosures Policy which was approved by the Board. The policy document governs the implementation, process and reporting of Basel III Pillar 3 Disclosures. It describes the scope, guiding principles, required standards and regulations, roles and responsibilities and internal controls for these disclosures.
