Report on review of interim condensed consolidated financial statements

To the shareholders of Saudi Basic Industries Corporation (SABIC)

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Saudi Basic Industries Corporation and its subsidiaries (the "Group") as of 31 March 2024 and the related interim condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the three-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" (IAS 34), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

All amounts in thousands of Saudi Riyals unless otherwise stated

1. CORPORATE INFORMATION

Saudi Basic Industries Corporation ("SABIC" or "the Parent") is a Saudi Joint Stock Company established pursuant to Royal Decree Number M/66 dated 13 Ramadan 1396H (corresponding to 6 September 1976) registered in Riyadh under commercial registration No. 1010010813 dated 14 Muharram 1397H (corresponding to 4 January 1977). The registered office is located at Qurtubah district, P.O. Box 5101, Riyadh 11422, Kingdom of Saudi Arabia ("KSA").

Saudi Arabian Oil Company ("Saudi Aramco") owns 70% of SABIC through one of its subsidiaries, "Aramco Chemicals Company". The Saudi Arabian Government is the largest shareholder by 82.19% direct shareholding in Saudi Aramco. The remaining 30% of SABIC shares are held by the private sector.

SABIC and its subsidiaries (collectively the "Group") are engaged in the manufacturing, marketing and distribution of chemicals, polymers, plastics, agri-nutrients, and metal products in global markets.

The interim condensed consolidated financial statements of the Group for the three months period ended 31 March 2024 were authorised for issue in accordance with a resolution of the Board of Directors on 1 May 2024.

2. BASIS OF PREPARATION

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 *'Interim Financial Reporting'* ("IAS 34") as endorsed in KSA and other standards and pronouncements that are endorsed by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

The interim condensed consolidated financial statements do not include all information and disclosures required in the annual consolidated financial statements and should therefore be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2023.

Gain from derivative financial instruments amounting to SR 252 million for the period ended 31 March 2023, which was previously presented under `Finance cost', has been reclassified to `Finance income'.

An interim period is considered as an integral part of the whole fiscal year. However, the results of operations for the interim periods may not be a fair indication of the results of the full year operations.

3. NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS ADOPTED BY THE GROUP

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in preparing the Group's annual consolidated financial statements for the year ended 31 December 2023, except for the adopted amendments to International Financial Reporting Standards ("IFRS") as elaborated below.

The Group has adopted the following relevant amendments to IFRS as endorsed in the KSA, which are effective for periods beginning on and after 1 January 2024, and have no impact on the Group:

- Amendment to IAS 1: Classification of Liabilities as Current or Non-current elaborates the requirements of 'right to defer settlement' by clarifying the meaning of right to defer and how the classification is unaffected by the likelihood that an entity will exercise such deferral right. The amendments published in 2020 and 2022 respectively, clarify that the classification of liabilities as current or non-current is based solely on a company's right to defer settlement for at least 12 months at the reporting date. The right needs to exist at the reporting date and must have substance. Only covenants with which a company must comply on or before the reporting date may affect this right. Covenants to be complied with after the reporting date do not affect the classification of a liability as current or non-current at the reporting date.

The Group has not early adopted any new standard, interpretation or amendment that have been issued but which are not yet effective.

4. DISCONTINUED OPERATION

On 3 September 2023, the group announced signing an agreement with the 'Public Investment Fund' ("PIF") to acquire all SABIC shares in the 'Saudi Iron and Steel Company' ("HADEED").

Following the signing of the agreement, Hadeed has been presented as 'discontinued operation' under IFRS 5 *'Non-current Assets Held for Sale and Discontinued Operations'*. The assets and liabilities of the disposal group are therefore classified and presented separately as 'held for sale' in these interim condensed consolidated financial statements. These are measured at lower of their carrying amount and fair value less costs to sell (based on the agreement) and depreciation is ceased on relevant assets from the date of their classification as 'held for sale'.

During the year ended 31 December 2023, as a consequence of the re-measurement of the assets and liabilities at fair value, a loss of SR 2,931 million was recognized. Further, an additional fair value loss of SR 366 million was recognized during the period ended 31 March 2024.

The transaction is subject to customary conditions and regulatory approvals and the closing is expected to be in the course of 2024.

4.1 Financial performance and cash flow information

SABIC accounts for a number of financial instruments, which are measured at amortised cost. The fair value of the majority of these instruments approximate their carrying values, except for debt which has carrying value amounting to SR 29,869 million and fair value amounting to SR 28,828 million as at 31 March 2024 (31 Dec 2023: carrying value amounting to SR 27,971 million and fair value amounting to SR 26,979 million). The fair value of trade receivables, short-term investments, cash and cash equivalents, trade payables and other financial assets and financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The key movements during the three months period ended 31 March 2024 in Level III fair values of financial assets and liabilities amounted to SR 193 million (31 March 2023: fair value gain amounting to SR 252 million) driven by a fair value gain of derivative financial instruments.

A change in the assumptions underlying the valuation of the options of +/- 10% would reflect in a change in the value of the call option up to approximately +/- SR 703 million and approximately +/- SR 213 million in the value of the put/call options.

There is no material unquoted equity instrument at FVOCI to be disclosed separately.

8. SEGMENT INFORMATION

For management purposes, the Group is organised into four operating segments.

The **Petrochemicals** segment consists of Chemicals and Polymer products.

- Chemicals products are produced from hydrocarbon feedstock including Methane, Ethane, Propane, Butane, and light Naphtha, with a wide range of products including Olefins, Methanol, Aromatics, Glycols, Carbon Dioxide, Methyl Tert-Butyl Ether (MTBE) and other Chemicals.
- Polymer products include Polyethylene (PE) and Polypropylene (PP), Polycarbonate (PC), and other Polymers products
    - The PE range includes: Linear Low Density Polyethylene (LLDPE), Low Density Polyethylene (LDPE), and High Density Polyethylene (HDPE).
    - The PP range includes Homo, Random and Impact Polypropylene and Polypropylene Compounds Homopolymer, Random and impact copolymer as well as specialty automotive grades.
    - Other key products include Polyvinyl Chloride (PVC), Polyethylene Terephthalate (PET), Polystyrene (PS), and Acrylonitrile Butadiene Styrene (ABS).

The **Specialties** segment – includes polymer technologies, application development on a global scale, innovative process technologies, and environmentally responsible solutions in almost every area of modern life, from automotive, aviation and electronics to construction, alternative energy, and health care. Specialties' portfolio of flagship products – NORYL™, ULTEM™, EXTEM™ and SILTEM™ resins, a vast range of LNP™ compounds and copolymers, and a variety of thermosets and additives – helps meet complex thermal, mechanical, optical and electrical performance and sustainability requirements.

At 31 March 2024, the Specialties segment does not meet the individual reporting requirements of IFRS 8 *'Operating Segments'*. The Specialties amounts therefore are included as part of the Petrochemicals' reporting segment.

The **Agri-Nutrients** segment consists of range of fertiliser products; including Urea, Ammonia, Phosphate, as well as compound fertilisers.

Hadeed wholly-owned manufacturing business is concerned with production of steel products; long products and flat products.

Hadeed is reported as *'discontinued operation'* in these interim condensed consolidated financial statements (refer Note 4).

The Chief Executive Officer monitors the results of its segments for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on income statement and is measured consistently with profit or loss in the interim condensed consolidated financial statements.
