Independent auditor's review report on the interim condensed consolidated financial statements to the shareholders of Saudi Basic Industries Corporation (SABIC) (A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Saudi Basic Industries Corporation ("SABIC") and its subsidiaries (collectively with SABIC referred to as "the Group") as at 30 September 2019, and the related interim condensed consolidated statements of income and comprehensive income for the three and nine months periods ended 30 September 2019, and the related interim condensed consolidated statements of changes in equity and cash flows for the nine months period then ended, and a summary of significant accounting policies and other explanatory notes (the "interim condensed consolidated financial statements"). Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

1. Corporate information

Saudi Basic Industries Corporation ("SABIC" or "the Parent") is a Saudi Joint Stock Company established pursuant to Royal Decree Number M/66 dated 13 Ramadan 1396H (corresponding to 6 September 1976) registered in Riyadh under commercial registration No. 1010010813 dated 14 Muharram 1397H (corresponding to 4 January 1977). SABIC is 70% owned by the Government of the Kingdom of Saudi Arabia ("KSA") through the Public Investment Fund ("PIF") and 30% by the private sector. The registered office is located at Qurtubah district, P.O. Box 5101, Riyadh 11422, KSA.

On 27 March 2019, PIF and Saudi Arabian Oil Company ("Saudi Aramco") have signed a share purchase agreement pursuant to which Saudi Aramco has agreed to acquire all of PIF's stake in SABIC. Completion of the transaction is subject to customary closing conditions, including regulatory approvals. Upon completion of the transaction, Saudi Aramco will own 70% of SABIC's issued share capital.

SABIC and its subsidiaries (collectively the "Group") are engaged in the manufacturing, marketing and distribution of chemicals, polymers, plastics, agri-nutrients and metal products in global markets.

The interim condensed consolidated financial statements of the Group for the three and nine months period ended 30 September 2019 were authorised for issue in accordance with a resolution of the Board of Directors on 24 October 2019.

2. Basis of preparation

These interim condensed consolidated financial statements for the three and nine months period ended 30 September 2019 have been prepared in accordance with International Accounting Standard 34 *'Interim Financial Reporting'* ("IAS 34") as endorsed in the KSA and other standards and pronouncements that are endorsed by the Saudi Organization for Certified Public Accountants ("SOCPA").

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements and should therefore be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2018.

An interim period is considered as integral part of the whole fiscal year, however, the results of operations for the interim periods may not be a fair indication of the results of the full year operations.

Certain prior periods' figures have been reclassified to conform to the current period's presentation.

3. Summary of significant accounting polices

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in preparing the Group's annual consolidated financial statements for the year ended 31 December 2018, except for the adoption of International Financial Reporting Standard 16 *'Leases'* ("IFRS 16") at its effective date 1 January 2019.

IFRS 16 replaces IAS 17 '*Leases*' ("IAS 17"), IFRIC 4 '*Whether an arrangement contains a lease*' ("IFRIC 4"), SIC-15 '*Operating leases - Incentives*' and SIC-27 '*Evaluating the substance of transactions involving the legal form of a lease*'. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for most leases under a single on-balance sheet model.

The Group has not early adopted any new standard, interpretation or amendment that have been issued but which are not yet effective.

4. Changes in accounting policies

IFRS 16 – Leases

The Group has adopted IFRS 16 from its mandatory adoption date 1 January 2019 using the modified simplified transition approach as permitted under the specific transition provisions in the standard. As a result, comparatives have not been restated.

The Group has not used the practical expedient of applying IFRS 16 to only those contracts that were previously identified as leases under IAS 17 (and IFRIC 4). In adopting IFRS 16, the Group has applied the following practical expedients:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics;
- accounting for operating leases in accordance with IAS 17 as short-term leases with a remaining lease term of less than 12 months at 1 January 2019;
- exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial application;
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease; and
- the election, by class of underlying asset, not to separate non-lease components from lease components, and instead account for each lease component and any associated non-lease components as a single lease component.

As at 1 January 2019, the Group has recognised additional lease liabilities amounting to SR 6.83 billion and associated right-of-use assets amounting to SR 7.29 billion in relation to contracts that have been concluded as leases under the principles of IFRS 16. The liabilities were measured at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate. The associated right-of-use assets are measured at the amount equal to the lease liabilities, adjusted by the amount of prepayments relating to that lease recognised in the consolidated statement of financial position as at 31 December 2018. The Group's weighted average incremental borrowing rate applied to the lease liabilities was 4.04%.

The following table shows the reconciliation of operating lease commitments under IAS 17 to the lease liabilities under IFRS 16 on 1 January 2019:

	1 January 2019
Operating lease commitments disclosed as at 31 December 2018	8,905,562
Discounted using the Group's incremental borrowing rate	(1,980,916)
Less: short-term leases recognised on a straight-line basis as expense	(190,859)
Less: low-value leases recognised on a straight-line basis as expense	(19,493)
Add: contracts reassessed as lease agreements	118,287
	6,832,581
Add: finance lease liabilities recognised as at 31 December 2018	738,925
Lease liabilities recognised as at 1 January 2019	7,571,506

Leases are recognised as right-of-use assets along with their corresponding liabilities at the date of which the leased assets are available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is recognised in the interim condensed consolidated statement of income over the lease term. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Right-of-use assets are initially measured at cost comprising the amount of the initial measurement of lease liability, any lease payments made at or before the commencement date less any lease incentives received, any initial direct costs, and restoration costs; if applicable.

4. Changes in accounting policies (continued)

IFRS 16 – Leases (continued)

Lease liabilities include, if applicable, the net present value of fixed payments including in-substance fixed payments, less any lease incentives receivable, variable lease payment that are based on an index or a rate, amounts expected to be payable by the lessee under residual value guarantees, the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Short-term and low value assets' leases
Short-term leases are leases with a lease term of 12 months or less. Low-value assets are items that do not meet the Group's capitalisation threshold and are considered to be insignificant for the statement of financial position for the Group as a whole. Payments for short-term leases and leases of low-value assets are recognised on a straight-line basis in the interim condensed consolidated statement of income.

Variable lease payments
Some leases contain variable payments that are linked to the usage or performance of the leased asset. Such payments are recognised in the interim condensed consolidated statement of income.

Extension and termination options
In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options or periods after termination options are only included in the lease term if the lease is reasonably certain to be extended or not terminated. The Group assesses at lease commencement whether it is reasonably certain to exercise the extension options. The Group reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant change in circumstances within control.

5. Significant matters during the period

5.1. Increase of shareholding in a subsidiary

SABIC and Japan Saudi Arabia Methanol Company, Inc. ("JSMC"), the partner in Saudi Methanol Company ("Ar-Razi"), a 50% owned subsidiary of SABIC, entered into an agreement, whereby SABIC agreed to acquire an additional 25% of shares in Ar-Razi from JSMC, and renew the Joint Venture Agreement ("JVA") for 20 years. At the end of June 2019, all required regulatory approvals were obtained to complete this transaction.

In relation to the above, SABIC and JSMC agreed that SABIC will receive a net consideration of SR 4.50 billion from JSMC in three installments. The first installment amounting to SR 1.13 billion (USD 0.30 billion) was received on 25 June 2019, after offsetting a consideration of SR 0.56 billion (USD 0.15 billion) for the acquisition of additional 25% shares of Ar-Razi. The remaining two installments of SR 1.69 billion (USD 0.45 billion) each, will be due on 31 March 2020 and 2021, respectively. The current installment of receivable has been recorded as part of prepayments and other current assets and the final discounted installment amounting to SR 1.58 billion has been recorded as part of other non-current assets. The final installment has been discounted at 4% per annum.

Considering this transaction is related to the acquisition of an additional ownership interest in a subsidiary without a change of control, accordingly, it is accounted for as an equity transaction and excess consideration over the carrying amount of the non-controlling interests is recognised in equity attributable to the Parent. The Group has elected to recognise this effect in retained earnings. With respect to the subsidiary to which these non-controlling interests relate, there were accumulated components recognised in OCI amounting to SR 15 million which has been reallocated within equity of the Parent.

5. Significant matters during the period (continued)
