LIMITED REVIEW REPORT

January 19, 2014

To the Shareholders of Saudi Basic Industries Corporation (SABIC)
(A Saudi Joint Stock Company)

Scope of review

We have reviewed the accompanying interim consolidated balance sheet of Saudi Basic Industries Corporation ("SABIC") and its subsidiaries (collectively referred to as the "Group") as of December 31, 2013 and the interim consolidated statements of income for the three-month and year ended December 31, 2013, and the consolidated statements of cash flows and changes in shareholders' equity for the year then ended and the related notes which form an integral part of these interim consolidated financial statements. These interim consolidated financial statements are the responsibility of the Group's management and have been prepared by them and submitted to us together with all the information and explanations which we required.

We conducted our limited review in accordance with the standard of Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants. A limited review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. The scope of such limited review is substantially less than an audit conducted in accordance with auditing standards generally accepted in Saudi Arabia, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Review conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting standards generally accepted in Saudi Arabia.

The accompanying notes 1 to 15 form an integral part of these interim consolidated financial statements.

1. ORGANIZATION AND ACTIVITIES

Saudi Basic Industries Corporation (SABIC) is a Saudi Joint Stock Company established pursuant to Royal Decree Number M/66 dated 13 Ramadan 1396H (corresponding to 6 September 1976) and registered in Riyadh under commercial registration No. 1010010813 dated 14 Muharram 1397H (corresponding to 4 January 1977). SABIC is 70% owned by the Government of the Kingdom of Saudi Arabia and 30% by the private sector.

SABIC and its subsidiaries (the "Group") are engaged in the manufacturing, marketing and distribution of chemical, fertilizer and metal products in global markets.

2. BASIS OF PREPARATION

The interim consolidated financial statements have been prepared in accordance with accounting standards generally accepted in the Kingdom of Saudi Arabia issued by the Saudi Organization for Certified Public Accountants (SOCPA).

Accounting convention
The interim consolidated financial statements are prepared under the historical cost convention, except for the measurement at fair value of available for sale investments and derivative financial instruments, using the accrual basis of accounting and the going concern concept. For employee and other post-employment benefits related to foreign entities, actuarial present value calculations are used.

Use of estimates, assumptions and judgments
The preparation of the interim consolidated financial statements in conformity with generally accepted accounting standards requires management to make estimates, assumptions and judgments that affect the reported amounts of revenues, expenses, assets and liabilities. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The actual results ultimately may differ from such estimates.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted by SABIC in preparing its interim consolidated financial statements are in conformity with those described in the annual audited consolidated financial statements for the year ended 31 December 2012 except for accounting treatment of interest in joint venture and employee benefits as described in subsequent paragraphs.

The interim consolidated financial statements and the accompanying notes should be read in conjunction with the annual audited consolidated financial statements and the related notes for the year ended 31 December 2012.

Basis of consolidation
The interim consolidated financial statements comprise the financial statements of the Group, as adjusted for the elimination of significant inter-company balances and transactions. A subsidiary is an entity in which SABIC has a direct or indirect equity investment of more than 50% or over which it exerts effective management control. The financial statements of the subsidiaries are prepared, using accounting policies which are consistent with those of SABIC. The subsidiaries are consolidated from the date on which SABIC is able to exercise effective management control, and deconsolidated from the date SABIC loses its effective management control.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of consolidation (continued)
The subsidiaries consolidated in these interim consolidated financial statements are as follows:

	Direct and indirect shareholding %	
	2013	*2012*
SABIC Industrial Investments Company (SIIC) and its subsidiaries	*100.00*	*100.00*
SABIC Luxembourg S.a.r.l. (SLUX) and its subsidiaries	*100.00*	*100.00*
Arabian Petrochemical Company and its subsidiary (Petrokemya)	*100.00*	*100.00*
Saudi Iron and Steel Company (Hadeed)	*100.00*	*100.00*
SABIC Sukuk Company (Sukuk)	*100.00*	*100.00*
SABIC Industrial Catalyst Company (Sabcat)	*100.00*	*100.00*
Saudi Arabia Carbon Fiber Company (SCFC)	*100.00*	*100.00*
Saudi European Petrochemical Company (Ibn Zahr)	*80.00*	*80.00*
Jubail United Petrochemical Company (United)	*75.00*	*75.00*
National Chemical Fertilizer Company (Ibn Al-Baytar)	*71.50*	*71.50*
National Industrial Gases Company (Gas)	*70.00*	*70.00*
Yanbu National Petrochemical Company (Yansab)	*51.95*	*51.95*

Saudi Japanese Acrylonitrile Company (Shrouq)	*50.00*	*50.00*
Arabian Industrial Fiber Company (Ibn Rushd)	*47.26*	*47.26*
Saudi Arabian Fertilizer Company (Safco)	*42.99*	*42.99*
Saudi Kayan Petrochemical Company (Saudi Kayan)	*35.00*	*35.00*

All directly owned subsidiaries are incorporated in the Kingdom of Saudi Arabia except for SLUX which is incorporated in Luxembourg. Yansab, Safco, and Saudi Kayan are listed Saudi Joint Stock Companies.

SINOPEC/SABIC Tianjin Petrochemical Co. Ltd. (SSTPC) is a jointly controlled entity equally owned by SIIC and China Petroleum & Chemical Corporation (SINOPEC). In May 2011, the International Accounting Standard Board (IASB) issued International Financial Reporting Standards 11: Joint Arrangements (IFRS 11). Under IFRS 11, investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor rather than the legal structure of the joint arrangement. IFRS 11 removes the option of proportionate consolidation set out in International Accounting Standard (IAS 31) Interest in Joint Ventures, which had been applied by the Group in 2012 and prior years. IFRS 11 requires entities to account for joint ventures using the equity method. The application of IFRS 11 is effective for the annual periods starting on or after 1 January 2013. Accordingly, effective 1 January 2013, the Group started recording the results of SSTPC using the equity method. The effect of the above mentioned change in accounting policy is not considered to be significant and, therefore, comparative figures are not restated.

Cash and cash equivalents
Cash and cash equivalents include cash on hand, bank balances, short term deposits, demand deposits, and highly liquid investments with original maturities of three months or less.

Short-term investments

Short-term deposits
Short-term deposits with original maturities of more than three months but less than twelve months are classified as short-term investments and included under current assets. Income from these deposits is recognized on accruals basis.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Short-term investments (continued)

Held to maturity – current portion
Held to maturity investments are reclassified as short-term investments under current assets when their remaining maturities are less than twelve months.

Accounts receivable
Accounts receivable are stated at the original invoice amount less any provision for doubtful debts. An estimate for doubtful debts is made when the collection of the receivable amount is considered doubtful. Bad debts are written off as incurred.

Inventories
Inventories are stated at the lower of cost or market value, less provision for slow moving items and obsolescence. Cost of raw materials, consumables, spare parts and finished goods is principally determined on a weighted average cost basis. Inventories of work in progress and finished goods include cost of materials, labor and an appropriate proportion of direct overheads.

Investments

Associated companies and interests in a joint venture
An investment in associated companies represents investments of 20% or more in the share capital of investees, other than subsidiary companies, and over which the Group exercises significant influence. A joint venture is a contractual arrangement whereby an entity and other parties undertake an economic activity that is subject to joint control. The agreement requires unanimous agreement for financial and operating decisions among the parties involved.

In the interim consolidated financial statements, the investments in associated companies and joint ventures are accounted for using the equity method, whereby the investment is initially recognized at cost and adjusted thereafter for the post-acquisition change in the Group's share of net assets of the associated companies and joint ventures. The Group's share in the financial results of these investees is recognized in the interim consolidated financial statements.

Available for sale
This represents investments in financial assets neither acquired for trading purposes nor held to maturity. These are stated at fair value. Differences between the fair value and the cost, if material, are reported separately in the interim consolidated statement of changes in shareholders' equity. Any decline other than temporary in the value of these investments is charged to the interim consolidated statement of income.

Fair value is determined by reference to the market value if an open market exists, or on the basis of the most recent financial statements. Otherwise, cost is considered to be the fair value.

Held to maturity
This represents investments that are acquired with the intention of being held to maturity, and these are carried at cost (adjusted for any premium or discount), less any decline in value which is other than temporary. Such investments are classified as non-current assets with the exception of investments maturing in the following twelve months.

Property, plant and equipment
Property, plant and equipment are stated at cost net of accumulated depreciation except for freehold land and construction work in progress which are stated at cost. Expenditure on maintenance and repairs is expensed, while expenditure on improvements is capitalized. Borrowing cost related to qualifying assets are capitalised during the period of construction as part of the qualifying assets. Borrowing costs are capitalised up to the date the qualifying asset is ready for its intended use.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property, plant and equipment (continued)
Items of property, plant and equipment are depreciated from the date they are available for use or in respect of self-constructed assets, from the date that the assets is completed and reach for its intended use. Depreciation is provided over the estimated useful lives of the applicable assets using the straight-line method. Leasehold improvements are depreciated over the shorter of the estimated useful life or the remaining term of the lease. The capitalised leased assets are depreciated over the shorter of the estimated useful lives or the lease term.

The estimated useful lives of current and comparative periods of the principal classes of assets are as follows:

Buildings	33 years
Plant and equipment	20 years
Furniture, fixtures and vehicles	4 -10 years

Leases
Leases are classified as capital leases whenever the terms of the lease transfer substantially all of the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. Assets held under capital leases are recognized as assets of the Group at the lower of the present value of the minimum lease payments or the fair market value of the assets at the inception of the lease.

Finance costs, which represent the difference between the total lease commitments and the lower of the present value of the minimum lease payments or the fair market value of the assets at the inception of the lease, are charged to the interim consolidated statement of income over the term of the relevant lease in order to produce a constant periodic rate of return on the remaining balance of the obligations for each accounting period.

Rental payments under operating leases are charged to the interim consolidated statement of income on a straight line basis over the term of the relevant operating leases.

Intangible assets
Intangible asset is defined as an identifiable non-monetary asset without physical substance which is controlled by the Group as a result of past events and from which future economic benefits are expected to flow to the Group. Intangible assets (other than goodwill) are measured initially at cost and subsequently, amortized using the straight-line method over their estimated useful lives of relevant assets.

Goodwill
The excess of consideration paid over the fair value of net assets acquired is recorded as goodwill. Goodwill is periodically re-measured and reported in the interim consolidated financial statements at carrying value after adjustment for impairment, if any. If, after reassessment, the net amounts of the identifiable net assets acquired at the acquisition date exceed the sum of the consideration paid, the excess is recognized immediately in the interim consolidated statement of income as a gain.

Pre-operating expenses
Expenses incurred during the development of new projects and their start-up periods, and which are expected to provide benefits in future periods, are deferred or capitalized. The deferred pre-operating expenses are amortized starting from the commencement of the commercial operations using a straight-line method over the shorter of the estimated period of economic benefits or seven years.

Impairment
At each balance sheet date, the Group reviews the carrying amount of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. Impairment losses are charged to interim consolidated statement of income.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment (continued)
For assets other than goodwill, an assessment is made periodically as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. This reversal is limited so that the carrying amount of the asset does not exceed the amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the interim consolidated statement of income.

Goodwill and other intangible assets with indefinite useful lives are tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

Accounts payable and accruals
Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the suppliers and service providers or not.

Dividends
Final dividends are recognized as a liability at the time of their approval by the General Assembly. Interim dividends are recorded as and when approved by the Board of Directors.

Zakat and income tax
Zakat is provided in accordance with the Regulations of the Department of Zakat and Income Tax (DZIT) in the Kingdom of Saudi Arabia and on an accrual basis. The provision is charged to the interim consolidated statement of income. Differences, if any, resulting from the final assessments are adjusted in the year of their finalization. Foreign shareholders in subsidiaries are subject to income tax in the Kingdom of Saudi Arabia, which is included in minority interest in the interim consolidated financial statements.

For subsidiaries outside the Kingdom of Saudi Arabia, provision for tax is computed in accordance with tax regulations of the respective countries. Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the relevant tax authorities.

Deferred income tax
Deferred income tax is provided using the liability method on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred income tax assets are reassessed at each balance sheet date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Long-term debt
Borrowings are initially recognized at cost, being the fair value of the proceeds received, net of transactions costs. Financial charges are accrued in the interim consolidated statement of income.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Employee benefits
Employee end of service benefits are provided for in accordance with the requirements of the Saudi Arabian Labor Law and Group's policies. Employee early retirement plan costs are provided for in accordance with the Group's policies and are charged to the interim consolidated statement of income in the year the employee retires.

The Group has pension plans for its employees in overseas jurisdictions. The eligible employees participate in either defined contribution or defined benefit plans. The pension plans take into consideration the legal framework of labor and social security laws of the countries where the subsidiaries are incorporated.

In June 2011, the IASB announced revisions to International Accounting Standard 19: Employee Benefits (IAS 19) impacting the measurement and presentation of employee benefits in respect of post-employment plans. The Group adopted the revisions of IAS 19, related to its pension plans for its employees in overseas jurisdictions, which became effective 1 January 2013. The most significant change of IAS 19 relates to the accounting for changes and measurement of defined benefit obligations and plan assets. The amendments require the recognition of changes in defined benefit obligations and fair value of plan assets when they occur, and eliminate the 'corridor approach' permitted under IAS 19 as applied by the Group up to 31 December 2012. In addition, IAS 19 accelerates the recognition of past service costs and requires all actuarial gains and losses to be recognized in the retained earnings.

Due to the amendments in IAS 19, the presentation of changes in defined benefit obligations and plan assets are split into three components:

- *Service costs* – are recognized in the interim consolidated statement of income and include current and past service cost as well as gains or losses on settlements.

- *Net interest* – is recognized in the interim consolidated statement of income and calculated by applying the discount rate at the beginning of the reporting period to the net defined benefit liability or asset at the beginning of each reporting period.

- *Re-measurement* – is recognized directly in the retained earnings and comprises actuarial gains and losses on the defined benefits obligation, i.e. the excess of the actual return on plan assets over the change in plan assets due to the passage of time and the changes, if any, due to the impact of the asset ceiling.

The revision of IAS 19 has been accounted for with effect from 1 January 2013 retrospectively, and the comparative figures for the earliest period presented (year ended 31 December 2012) have been restated.

Employee home ownership program
Unsold housing units constructed for eventual sale to eligible employees are included under land and buildings and are depreciated over 33 years. Upon signing the sale contract with the eligible employees, the relevant housing units are classified under other non-current assets.

Revenue recognition
Sales represent the invoiced value of goods shipped and services rendered by the Group during the period, net of any trade and quantity discounts. Generally sales are reported net of marketing and distribution expenses incurred in accordance with executed marketing and off-take agreements.

Selling, general and administrative expenses
Production costs and direct expenses are classified as cost of sales. All other expenses, including selling and distribution expenses not deducted from sales, are classified as selling, general and administrative expenses.

Technology and innovation expenses
Technology and innovation expenses are charged to the interim consolidated statement of income when incurred. Development expenses, which are expected to generate measurable economic benefits to the Group, are capitalized as intangibles and amortized over their expected useful lives.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency translation
Transactions in foreign currencies are translated into Saudi Riyals at the rates of exchange prevailing at the time of such transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated at the exchange rates prevailing at the balance sheet date. Gains and losses from settlement and translation of foreign currency transactions are included in the interim consolidated statement of income.

The financial statements of foreign entities are translated into Saudi Riyals using the exchange rate at each balance sheet date, for assets and liabilities, and the average exchange rates for revenues and expenses. Components of equity, other than retained earnings, are translated at the rates prevailing at the date of their occurrence. Translation adjustments, if material, are recorded as a component of shareholders' equity.

Derivative financial instruments
The Group uses derivative financial instruments to hedge its exposure to certain portions of its interest rate risks arising from financing activities. The Group generally designates these as cash flow hedges of interest rate risk. The use of financial derivatives is governed by the Group's policies, which provide principles on the use of financial derivatives consistent with the Group's risk management strategy. The Group does not use derivative financial instruments for speculative purposes. Derivative financial instruments are initially measured at fair value on the contract date and are re-measured to fair value at subsequent reporting dates.

Changes in the fair value of derivative financial instruments that are designated as effective hedges of future cash flows are recognized directly in equity, if material and the ineffective portion is recognized in the interim consolidated statement of income. If the cash flow hedge of a firm commitment or forecasted transaction results in the recognition of an asset or a liability, then, at the time the asset or liability is recognized, the associated gain or loss on the derivative that had previously been recognized is included in the initial measurement of the asset or liability. For hedges that do not result in the recognition of an asset or a liability, amounts deferred in equity are recognized in interim consolidated statement of income in the same period in which the hedged item affects net income or loss.

Changes in fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the interim consolidated statement of income as they arise. Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. At that time, for forecast transactions, any cumulative gain or loss on the hedging instrument recognized in equity is retained in equity until the forecasted transactions occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognized in equity is transferred to interim consolidated statement of income for the year.

Financial assets and liabilities
Financial assets and liabilities carried in the interim consolidated balance sheet principally include cash and cash equivalents, short-term investments, accounts receivable and other receivables, accounts and other payables, accrued expenses and borrowings.

A financial asset and liability is offset and net amount reported in the interim consolidated financial statements, when the Group has a legally enforceable right to set-off the recognized amounts and intends either to settle on a net basis, or to realize the asset and liability simultaneously.

Interim consolidated statement of cash flows
The Group uses the indirect method to prepare the interim consolidated statement of cash flows. Cash flows in foreign currencies are translated at average exchange rates.

Segment reporting
A segment is a distinguishable component of the Group that is engaged either in providing products or services (a business segment) or in providing products or services within a particular economic environment, which is subject to risks and rewards that are different from those of other segments.

4. INVESTMENTS

Investments include interests in associated companies and joint ventures which are accounted for based on the equity method in these interim consolidated financial statements. As explained in note 3, the Group's interest in SSTPC amounting to SR 2.19 billion as of 31 December 2013 is included in investments.

Investments also include 'available for sale' and 'held to maturity' investments.

5. INTANGIBLE ASSETS

Intangible assets include goodwill, patents, trademarks, pre-operating costs and other intangibles.

6. LONG-TERM DEBT

Term loans
The Group obtained commercial loans from various financial institutions in order to finance its expansions, new projects and acquisitions, which are repayable in installments at varying interest rates in conformity with the applicable loan agreements.

Notes
On 29 December 2009, SABIC entered into an agreement with PIF for a private placement of unsecured Saudi Riyal notes amounting to SR 10 billion with multiple tranches. Such notes are fully drawn and have a bullet maturity after 7 years of their issuance.

Bonds
On 3 October 2013, SABIC Capital II B.V. issued a 5 year $1 billion bond with a coupon of 2.625%. On 20 November 2013, SABIC Capital I B.V. issued a 7 year € 750 million bond with a coupon of 2.75%. Such bonds were issued for refinancing purposes.

On 2 November 2010, SABIC Capital I B.V. issued a 5 year $ 1 billion bond with a coupon of 3.0%.

Sukuk
On 3 May 2008, SABIC issued its third Sukuk amounting to SR 5 billion, at par value of SR 10,000 each, without discount or premium, maturing in 2028. On 15 May 2013, SABIC purchased the assets of its third Sukuk amounting to SR 5 billion in accordance with the terms and conditions of the Sukuk. As of 31 December 2013, the total outstanding Sukuk amounted to Nil (31 December 2012: SR 5 billion).

SABIC has provided guarantees for bonds and term debt related to certain subsidiaries.

7. ZAKAT

SABIC has filed its zakat returns with the DZIT up to the year ended 31 December 2012, settled the zakat dues accordingly and received the related zakat certificates. SABIC has cleared its zakat status with DZIT up to the year ended 31 December 2010, however, the zakat assessment for the year ended 31 December 2011 and 2012 are under review by the DZIT.

8. SHARE CAPITAL

The share capital amounting to SR 30 billion is divided into 3 billion shares of SR 10 each as of 31 December 2013 and 2012.

9. EARNINGS PER SHARE

The earnings per share is calculated based on the weighted average number of outstanding shares at the end of the period / year.

10. SEGMENT INFORMATION

The Group's operations consist of the following business segments:

- **The chemicals segment** includes chemicals, polymers, performance chemicals and innovative plastics.
- **The fertilizers segment** consists of fertilizer products.
- **The metals segment** consists of steel products.
- **The corporate segment** includes corporate operations, technology and innovation centers, investment activities and SABIC Industrial Investments Company (SIIC)

The net results of the above segments include share in results of subsidiaries and associated companies. Also, the total assets amounts in these segments include investment balances with respect to subsidiaries.

A substantial portion of the Group's operating assets are located in the Kingdom of Saudi Arabia. The principal markets for the Group's chemical products are Europe, USA, the Middle East, and Asia Pacific. The principal markets for the Group's fertilizers segment are mainly in South East Asia, Australia, New Zealand, South America, Africa and the Middle East. The metals segment sales are mainly in the Kingdom of Saudi Arabia and other Gulf Cooperative Council (GCC) Countries. The corporate activities are primarily based in the Kingdom of Saudi Arabia.

11. INTERIM RESULTS

The results of operations for the interim periods may not be an accurate indication of the results of the full year's operations.

12. CONTINGENT LIABILITIES

The Group is involved in litigation matters in the ordinary course of business, which are being defended. While the ultimate results of these matters cannot be determined with certainty, the Group's management does not expect that they will have a material adverse effect on the interim consolidated financial statements of the Group.

The Group's bankers have issued, on its behalf, bank guarantees amounting to SR 2.3 billion (31 December 2012: SR 2.5 billion) in the normal course of business.

13. DERIVATIVE FINANCIAL INSTRUMENTS

The Group has executed derivative financial instruments including commission rate swaps. The remaining notional amount outstanding at 31 December 2013 under such agreements was SR 6.7 billion (31 December 2012: SR 9.5 billion).

14. APPROPRIATION OF NET INCOME

The Annual General Assembly, in its meeting held on 3 Jumada Al-Thaany 1434H corresponding to 13 April 2013, approved the appropriation of net income for the year ended 31 December 2012 as follows:

- distribution of cash dividends of SR 15 billion (SR 5 per share), this includes the interim cash dividends amounting to SR 6 billion (SR 2 per share) for the first half of 2012;
- payment of SR 1.8 million as Board of Directors' remuneration; and
- transfer of remaining balance to the general reserve.

On 29 Sha'baan1434H corresponding to 8 July 2013, SABIC's Board of Directors approved to distribute interim cash dividend for the first half of 2013 amounting to SR 6 billion (SR 2 per share).

On 14 Safar 1435H corresponding to 17 December 2013, the Board of Directors proposed a distribution of cash dividends for the second half of the year ended 31 December 2013 amounting to SR 9 billion (SR 3 per share). The proposed dividends are subject to the approval of the shareholders at their Annual General Assembly Meeting. The total cash dividends for the year ended 31 December 2013 would amount to SR 15 billion (SR 5 per share).

15. COMPARATIVE FIGURES

Certain prior period figures have been re-classified to conform with the presentation in the current period.
