The average LCR is calculated by taking a simple average of monthly figures based on daily average balances beginning from Jan 1st, 2025 to Mar 31st, 2025.

During the period, the Bank held an average of 97.96% of its High-Quality Liquid Assets (HQLAs) in securities with a 0% risk weight, issued or guaranteed by sovereigns, central banks and supranational entities. The remaining 2.04% of HQLAs held a 20% risk weight from securities guaranteed by sovereigns and non-financial corporate bonds rated AA- or better.

The majority of the bank's weighted cash outflows are attributable to non-financial corporates at 44.21% of outflows. Whereas retail and small Businesses' deposits held 25.99%, and bank placements at 12.93%. SNB's derivatives positions are not significant, as most transactions are conducted on a back-to-back basis with limited open positions being taken. The Group's main activities are conducted in SAR USD, and TRY. The peg between SAR and USD currencies enhances the funding ability and provides the flexibility to interchange between both currencies.

Additionally, following regulatory guidelines, LCR is monitored separately for all significant currencies to ensure the liquidity ratios are met at all times in either currency, SAR, USD and TRY.

The average Q1-2025 LCR is 245.53% as compared to Q4-2024 LCR which was 265.23%, a decrease of 19.70%. The decrease in the LCR between the two periods is primarily due to increase in net cash outflows. However, no significant change has been seen in HQLA.

Basel III Qualitative and Quantitative Pillar 3 Disclosures Policy:

To assure compliance with the requirements of the guidance issued by SAMA dated December 2022, SNB has created Basel III Pillar 3 Disclosures Policy which was approved by the Board. The policy document governs the implementation, process and reporting of Basel III Pillar 3 Disclosures. It describes the scope, guiding principles, required standards and regulations, roles and responsibilities and internal controls for these disclosures.
